

Figure 5. Cross-dataset synthesis: regime-dependent gene-level support across structured responses

A. Strong selectivity does not imply consistent gene-level support

B. Gene-level support differs by dataset

C. Interpretive summary

Dataset	Representation	Gene-level support
PBMC	Structured (Fig. 2)	Partial / subset-dependent
Norman	Structured (Fig. 3)	Weak
Replogle	Structured (Fig. 4)	Heterogeneous
